CONSERVATIVE TREATMENT OPTION FOR

Radiculopathy • "Text Neck"
Cervicogenic Headaches

— NON-NARCOTIC THERAPY —

Consequences of Poor Posture

Reading, computer work and cell phone use often contribute to poor neck posture. As your head moves forward out of alignment, gravitational forces are magnified causing neck muscles and structures to overwork. For every inch that the head protrudes from its normal position, the neck must support 10 additional pounds of force (*Dr. Adalbert I. Kapandji, author of "The Physiology of the Joints"*)¹. The more misalignment, the greater the chance of significant problems such as:

- Restricted Mobility
- Neck and shoulder pain
- Radiculopathy
- Cervical symptoms
- Migraines
- Jaw Pain

The Benefits of Bracing

To promote healing, the Vista® MultiPost Therapy Collar offers a unique compression system which helps to reposition the head and neck while providing a therapeutic level of support for the cervical spine. In conjunction with other treatments offered by your physician, the Vista MultiPost Therapy Collar is designed to help reduce the symptoms associated with poor neck posture from the comfort of your home.

TO PROMOTE A MORE NATURAL POSTURE

TARGETED COMPRESSION BLADDER
TO SUPPORT SYMPTOM RELIEF

HOT/COLD THERAPY HELPS TO
REDUCE INFLAMMATION AND
RELIEVE TIGHT MUSCLES

COMFORTABLY FITS ALL BODY TYPES

Active Treatment From The Comfort of Home

Poor neck posture is a growing problem often caused by the increased use of computers and cell phones. Aspen's revolutionary Vista MultiPost Therapy Collar is designed to help re-establish a more natural alignment with the therapeutic goal of reducing symptoms.

Compression Therapy

Like the lumbar support used in most cars, the Vista MultiPost Therapy Collar provides therapeutic support to the neck to promote better posture. This more natural alignment may help to reduce symptoms by taking the stress off vertebrae, discs and nerves, while allowing the supporting muscles to relax. The hot/cold therapy pack directs the location of the therapeutic compression to help reduce inflammation and unlock tight muscles to provide soothing relief.

Frequently Asked Questions

How long do I need to wear the collar?

Every patient is different. Be sure to follow your physician's instructions.

How do I activate the compression?

Simply squeeze the pump located on the front of the collar until desired compression is reached. The compression can be reduced by pressing the release valve located next to the pump.

Will my health insurance pay for an Aspen brace?

Medicare and most private health insurance companies do offer coverage for this brace. Consult Medicare or your insurance carrier to verify coverage.

ASPEN MEDICAL PRODUCTS

Over the years, Aspen has brought numerous spinal care innovations to market. Backed by years of industry leading research and development, Aspen products have helped countless patients get back to the activities they care about. Quality products with features that make a positive difference is the reason why Aspen Medical Products is leading the industry in spinal orthotics.
